

The Harvest Fields

Spring 2016

Precious Partners, Happy Resurrection Day!! Greetings from Benin and Haiti, the harvest fields of Compassion of Christ World Mission. God has been faithful in using staff in both countries to bring salvation and education to the children and people of both nations, for which I am grateful. I am also grateful to each of you who continue to stand with this ministry to proclaim the gospel and make disciples through the means of education.

Back to Benin

Both schools in Benin are doing very well under the supervision of our Director Noel Ahamide and Alexis Yambode, the president of our Non Profit Organization (NGO) there.

Pastor Daniel and the church in the Agondoton village continues to grow and fervent prayer is one of the reasons. God be praised. I will be heading back to Benin in April . Both they and I are anticipating my return. Please pray with me as I return.

India Summit Meeting

Prayer Service - Agondoton Village

The Least Reached

As I continue to oversee the ministry in Haiti and Benin, God has been directing my heart towards other nations, the principle one of which is India. In January, I had the privilege of joining meetings with Rev. Virgil Amos and Ambassador's Fellowship for a series focused on strategy and vision for making disciples in this nation that has the most unreached people groups; over 2000.

Please join with me in prayer for my Father's continued direction . I am still believing God to raise \$4000 to take an investigative trip to India. If you'd like to be one of 40 people sowing a \$100 seed for this endeavor, please send your gift to the P.O. Box above ear-marked for India. Thanks in advance to every heart led to do so.

Haitian News

Christmas in the Caribbean

Gift Day Caribbean Christmas

Our Caribbean Christmas Child Project of December 2015 was an awesome experience in many faceted ways. First of all, we had a team of 15 that included three young'uns, one 13, one 14 and the other 20 who were on fire for God; they were a beautiful example to my young people there in Haiti. Xavier Clemons, who first came last year at the age of 13, was so excited he returned this year and brought his 20 year old sister and a friend. He was once again a blessing to Haiti and the team with his gift of worship glorifying God with his guitar and voice. Future missionary??

We also held an outdoor crusade, went witnessing in the market place and hosted a medical clinic thanks to Compassion's apostle "Luke" Dr. Ava Joubert . Many souls were saved through these outreach efforts. Glory to God!

Preparing Gifts

Xavier leading morning devotions

The icing on top for me was the Pastor 2 Pastor Seminar we did where Pastor Will Smith, Dr. Sabrina Black and I engaged precious men and women of God committed to receiving from God that they might better shepherd their flocks. I brought a seminar challenging these pastors to the mission mandate of Christ and to my blessed surprise some of them stood up encouraging each other to collectively consider equipping, preparing and sending laborers from Haiti to other nations particularly the 1040 window. WOW !

I just stood there with my mouth open. I hope to soon get back to meet with some of these pastors, who in spite of their own needs, have a desire to join with God on His mission to reach the nations. Please pray with me and for God's end time agenda to be every pastor and believer's agenda.

Thanks so much again to every one of you who encourage me to continue working with my Father.

Love,
Brenda
